FOR IMMEDIATE RELEASE April 19, 2012

New Blue Monster® Nickel Anti-Seize Lubricant and Thread Sealant for Stainless Steel Pipe and Fittings

Mentor, OH – Developed to seal threads under harsh environments at temperatures up to 2600⁰F, new Blue Monster Nickel Anti-Seize lubricant and thread sealant is now available exclusively from Clean-Fit Products, a division of The Mill-Rose Company,

Ideal for use on stainless steel pipe and fittings, Blue Monster Nickel Anti-Seize compound is composed of pure nickel powder and graphite flake dispersed in a petroleum carrier that ensures lubricity and effective sealing. The extreme service compound may also be used on threaded PVC, CPVC, nylon, polypropylene, plastics, and all metals.

Blue Monster Nickel Anti-Seize compound is non-seizing and allows for easy disassembly of any threaded connection long after initial assembly. It provides excellent resistance to chemical corrosion and oxidation, and prevents rusting, seizing, welding, or galling. Blue Monster Nickel Anti-Seize compound is suitable for use on systems carrying air, diluted alkalis, ammonia, brine, carbon dioxide, chlorinated water, freon, inert gases, natural gas, nitrogen gas, refrigeration gases, steam and water.

Blue Monster Nickel Anti-Seize Sealant is available at leading plumbing wholesalers from Clean-Fit Products, a division of The Mill-Rose Company, the world's leading supplier of PTFE thread sealants and largest manufacturer of twisted-in-wire brushes in the U.S.A. For further information contact Clean-Fit Products, 7310 Corporate Blvd., Mentor, Ohio 44060. Telephone 1-800-321-3598, fax 1-440-255-1072, e-mail info@cleanfit.com or visit the company's web site at www.cleanfit.com.
