FOR IMMEDIATE RELEASE October 18, 2011

## **Blue Monster™ Advantage™ Closet Bolts Simplify Installation of Toilets**

New Blue Monster™ Advantage™ closet bolts available exclusively from Clean-Fit Products, a division of the Mill-Rose Company, simplify installation of toilets to save time and ensure the job is done right. For the first time since the invention of the closet bolt, installers can tell the direction of the bolt's foot while setting the toilet due to the unique, broached tip design.

Additional features include raised knobs on the underside of the foot that prevent movement after setting the toilet, simplifying the installation process. Blue Monster™ Advantage™ closet bolts are machined to facilitate a clean “break-off” at the desired level, eliminating the need to saw the bolt at the proper length. This action takes seconds, prevents marking the china with a saw and provides a secure fit for the universal bolt cap. It also allows for easy removal of the nut if disassembly is required.

Visit [http://cleanfit.com/video\\_media.shtml](http://cleanfit.com/video_media.shtml) to watch a video on these special closet bolts, sold as kits containing 2 solid brass bolts, 2 brass open-end acorn hex nuts, 2 nylon Tinnerman nuts and 2 stainless steel washers.
